

DEE ROCHE

Professional Profile

Dee has been facilitating, public speaking; teaching and working with groups for over 30 years within private, public and community based organisations.

Dee currently lectures at the University of Western Australia Business School on the Master of Business Administration (MBA) Program, focusing on Strategic Change and Transformation; and is the 2013 Winner and 2014, 2015; 2016; & 2018 Nominee of the University of Western Australia Excellence in Teaching Award; 2014 Winner UWA Excellence in Teaching and Research Awards (Program Award); and 2014 Nominee for the Western Australian Women's Hall of Fame.

Dee has significant experience in the area of Mentoring and providing start-up mentor support to many leading organisations throughout Western Australian and Australasia.

Dee believes what makes a successful mentoring program is the generosity and wisdom of the mentors involved. Mentors unconditionally offer their expertise, time and generosity to encourage someone else's growth and wisdom. Mentoring as a concept is often thought to be a one-way street, Dee says to the contrary, part of the appeal of mentoring is that it is a reciprocal and open process of knowledge sharing which benefits both parties.
